Hakan Karadeniz

I completed my 4 years education year at the Department of Electrical and Electronics Engineering at Istanbul Bilgi University. I want to implement and manage national and international projects that touch people's lives in a company where I can use my experience, demonstrate my technical knowledge and skills, and be useful. In line with this goal, I continue to improve myself with the principle of life long learning.

Education and Qualifications

Electrical and Electronics Engineering
Istanbul Bilgi University, Istanbul

Oct 2017 - Present

Business / Faculty of Open and Distance Education
Istanbul University

Oct 2020 - Present

Work experience
